

TRAINING PROGRAM IN FORENSIC PSYCHOPHYSIOLOGY

—
EUROPEAN POLYGRAPH ACADEMY
INTERNATIONAL CERTIFICATION | ONLINE MODALITY

FORENSIC PSYCHOPHYSIOLOGY TRAINING

Forensic psychophysiology is a scientific discipline that studies the relationship between physiological responses and human behavior in investigative, security and justice situations. It is mainly used in **lie detection** and **truthfulness assessment**, through advanced tools such as the **polygraph**.

At the European Polygraph Academy, we understand that mastering forensic psychophysiology requires a **progression of knowledge and skills**. That is why we have designed our **training in three strategic levels** to ensure that students progress comprehensively in their learning, developing the necessary competencies to become true experts in the field.

1

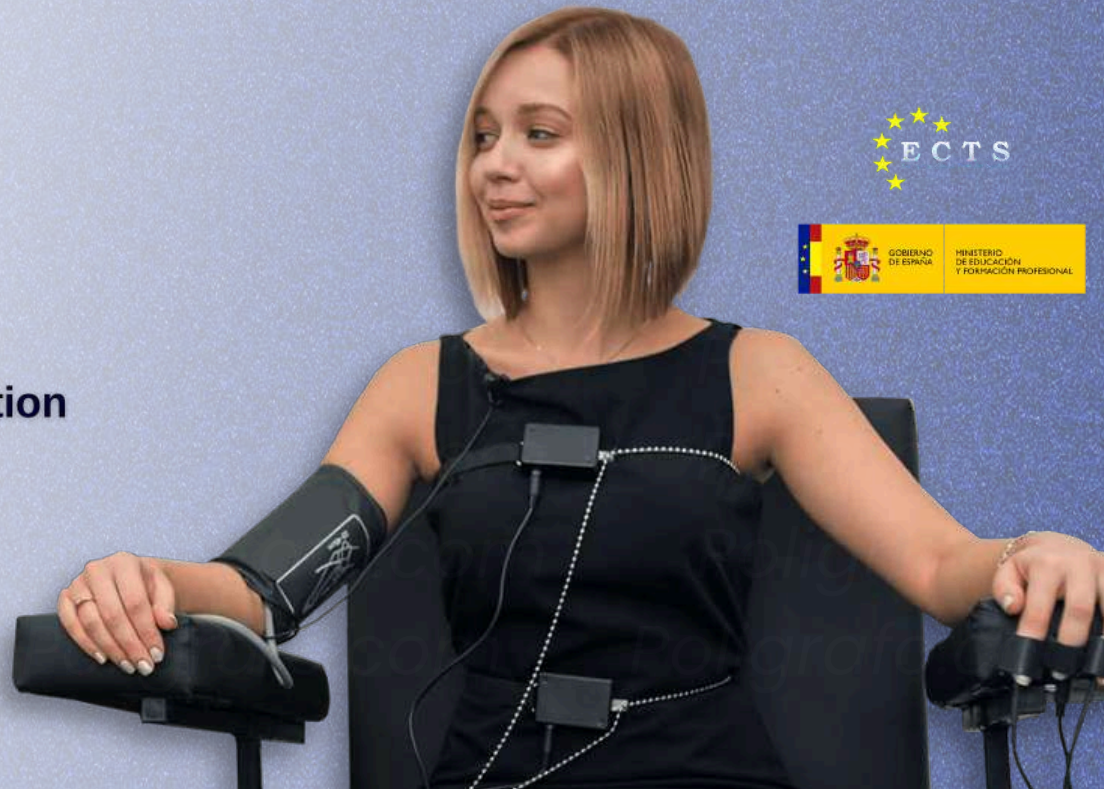

First Level: Mastering Polygraph Fundamentals

2

Second Level: Professional Certification in Forensic Psychophysiology

3

Third Level: Advanced Course in Forensic Psychophysiology (Master)

MASTERING POLYGRAPH FUNDAMENTALS

1

ONLINE MODALITY

Ideal for:
